

MSS 15596
ALMANAC COLLECTION
1755 - 1995

OVERVIEW OF THE COLLECTION

Object ID No: 15596
Title: Almanac Collection
Creator: Various
Dates: 1755-1995
Media: Almanacs
Quantity: 10.1 linear feet

BACKGROUND

Almanacs are annual publications that traditionally contained information about weather forecasts, when to plant crops, astronomical data (rising and setting of the sun and moon, eclipses, tides, etc.), astrological predictions, and church festivals and holidays, often in tabular form. Publishers have also included quotations and sayings, fashion advice, household tips and various other kinds of information, adapting the content to the needs and tastes of contemporary readers. Almanacs reflect contemporary culture and folkways. Many of the almanacs in this collection specifically reflect Pennsylvania German culture and folkways.

SCOPE AND CONTENTS OF THE COLLECTION

The collection contains almanacs primarily published in the South Central Pennsylvania region, although there are some almanacs published in other states and countries as well. Additionally, there are almanacs in both the German and English languages. The almanacs range from eighteenth- to twentieth-century publications.

ORGANIZATION OF THE COLLECTION

The collection is arranged geographically by the place of publication and by language.
